*A true classic with all the appointments*

associated with the charm of Country French design, this home features a very large central area for family gatherings.

The entry, protected by a timber framed porch, leads you through a thick archway into a large open space for dining and living room areas. A wide passageway immediately opens to the central family room and kitchen area. On each side of the fireplace, French doors lead to the private courtyard that also opens to the living room and master bedroom. Through another archway, the passage leads to the master bedroom suite and stairway to the upper level. Two large bedrooms are upstairs, each with its own bath.

Downstairs, a powder room is conveniently, and privately, located near the kitchen and laundry area. A side entry into the utility area also provides easy access from the garage to the kitchen.

**Total Living Space - 3,200 sq. ft**
